RESIDENT ENGINEER SIGNATURE:

DATE:

11/21/2016

Distribution: Original -- Contractor;

Copies -- District, resident engineer

## WEEKLY STATEMENT OF WORKING DAYS

### FOOTNOTE INSTRUCTIONS TO RESIDENT ENGINEER

1. When recording nonworking days due to weather, *state the reason why the day is unworkable* when the weather description itself does not adequately describe conditions. For example, "clear-wet grade" to describe conditions when the weather is clear, but the grade is too wet to work. **Do not** list days merely as "Unworkable."
  2. List numbers of change orders providing for time extensions.
  3. Do not include nonworking days which occur after expiration of the **Extended Date of Completion**. On contracts that are overtime, the total under Working Days shall not be greater than the total of **Revised Working Days (line 7)**. After approved total of working days has been reached, continue recording working and nonworking days but do not add into the totals. Make a statement under **Remarks** that working and nonworking **days** are shown for record only since the contract time has elapsed.  
  
If an extension of time is subsequently approved, determine the new **Extended Date** by taking into account all nonworking **days** that are reachable.
  4. From the calendar issued by the Division of Construction with working days numbered for convenience in computations.
