

Revision Log for Geotechnical Notes for Specifications

Implementation Date: January 2022

- Removed the Non-Standard Special Provisions (nSSP) section. A separate module specifically for Non-Standard Special Provisions (nSSP) has been created to address this subject.
- Removed the requirement for the statement, “Before using the information provided in this section, please review the report to comprehend the contents and intent of the geotechnical design.” at the beginning of the Notes for Specifications section. Structure OE and District OE have internal policies addressing this subject.

Implementation Date: January 2021

- First Version
