

Acknowledgements

The 2015 edition of the *Bridge Deck Construction Manual* was updated by a group of dedicated Bridge Engineers from the Structure Construction *Bridge Deck and Barrier Rail Technical Team*.

Thanks to Steve Harvey, P.E., Supervising Bridge Engineer, for his sponsorship of the *Bridge Deck and Rail Technical Team*. His guidance and leadership proved invaluable towards the successful updating of this manual. Thanks to Senior Bridge Engineers Loren Newell, P.E. and Sonny Ferreira, P.E. for their dedicated contributions and teamwork as Technical Team Chairman and Vice-Chairman. Thanks to the Senior Bridge Engineer team members David Tenorio, P.E., Monty Navarro, P.E., and Richard Yates, P.E. for their help updating chapters and *Bridge Construction Memos*. Thanks to Structure Representative and team members David Clark, P.E., and Steve Elkins, P.E., for their input on current field practices, manual edits and compilation of jobsite photographs. The entire *Bridge Deck and Rail Technical Team* are to be applauded for their efforts.

Thanks to Senior Bridge Engineer Cheryl Poulin, P.E. for her tireless efforts towards keeping this team on track and supplying them with tools necessary to update this manual. Thanks to Marty Cook, AGPA, for assembling the manual in a readable format while keeping it in conformance with a writing style consistent with Structure Construction practices.

Special thanks to the Caltrans engineers who drafted the original *1991 Bridge Deck Construction Manual*. Their vision, dedication, and research, produced a manual that has been used by many throughout the years.

Signed,

A handwritten signature in black ink, appearing to read 'Steve Altman', with a long horizontal line extending to the right.

STEVE ALTMAN
Deputy Division Chief
Structure Construction
Division of Engineering Services
