Subject: LCCA Exemption Request EA 04-xxxxx Lagunitas Creek Bridge

I work in the Office of Advance Planning in District 4, and we are preparing a PSSR (see attached for draft PSSR) to replace Lagunitas Creek Bridge in Marin County on Route 1. In order to match the standard bridge cross section (12 ft lane, 8 ft shoulder and 8 ft sidewalk), approximately 100 ft of roadway shoulders, at both ends of the bridge in both directions, is to be widen 8 ft. The pavement structural section cost is \$72,000, which amounts to 1.2% of the total construction cost of \$6,000,000. We would like to request a LCCA exemption for this bridge replacement project due to small amount of roadway pavement work. The draft PSSR is attached for your review.

If you have any questions or require further information, please contact me. Thank you.
