

Asphalt Recycling Subtask Group Meeting Minutes

Date: Jan 29th, 2019

Facilitator:

Attendees:

1. CT/IN: Caltrans and Industry representatives worked together to prepare five bin list to be included in future scoping documents, as requested by ATG. Items are listed below:
 - a. Priority 1: Revisit Full Depth Reclamation- Portland Cement (FDR-PC) Specification
 - b. Priority 2: Cold In-Place Recycling (CIR)/Cold In-Plant Recycling (CIPR) – Foamed
 - c. Priority 3: Allow use of RAP in Rubberized Hot Mix Asphalt (RHMA-G)
 - d. Priority 4: Specification to allow Recycled Asphalt Shingles (RAS) up to 3 percent in HMA
 - e. Priority 5: Educational Outreach on all recycling strategies
2. CT/IN: Decided to distribute work load and selected responsible person to prepared future scoping documents as follows:
 - a. Priority 1: FDR-PC Specification - In progress-Marco/Greb
 - b. Priority 2: CIR/ CIPR – Foamed - Marco
 - c. Priority 3: Allow use of RAP in RHMA-G – Phil
 - d. Priority 4: Specification to allow RAS up to 3 percent in HMA – Phil
 - e. Priority 5: Education Outreach on all recycling strategies – CT/IN
3. IN: Raised concerns over the CIR/FDR not being popular as a Maintenance/Rehabilitation strategy within the Caltrans. If needed, Industry expressed willingness to provide support to educate and training the Caltrans' staffs.
