

District 11 A&E On-Call Land Surveying Outreach

1. You mention that this RFQ will be released “around March.” Do you have a target date for the RFQ release? This will help with our planning. Mid-late March.
2. Any rough approximate on when the ICE work may take place? In conjunction with progressive support build – anticipated start time is late summer.
3. Is there a SBE requirement for this contract? Only DBE goals will be applied due to Federal assistance provided on this contract.
4. Will DOAC issue future RFQs with SBE requirements? Nothing predetermined on the structure on how to go about it, within the next year, we will be introducing pilot program to provide different avenue to provide more small business participation similar to the SANDAG A&E Bench. Details are still being worked out and still a significant time away from implementing but looking to provide those SB opportunities.
5. Regarding the SB goal, will SB-PW apply? No
6. Will there be an estimating certification required? (CPE. CCEA etc.)
No, an estimating certification is not required.
7. Could you please elaborate on the expectations from the consultants for the Progressive Design build Project as compared to the typical Design-Bid-Build projects? New alternative method is to bring in contractor early, partner and deliver quicker, is the main goal. Being a partner during the whole process to deliver quicker.
8. When will the progressive design build project will be advertised? Goal is mid-late March.
9. What is the EA for project? 11-43063
10. Will you make the presentation available?
