

D11 A&E On-Call Noise Contract Outreach Q&A

1. Any DBE needs o the Information systems services? For example, expertise on “Field Service” software, like mobile apps for the labor on the field, or remote assistance for workers, etc.?

Answer: We submitted SOW which once advertised can be read in detail. The Office of Civil Rights determined that no DBE goals were associated with this contract and that could be due to the limited amount of certified DBE firms for this type of work. We still encourage DBE goal participation.

2. Will you be sharing the deck with attendees?

Answer: Yes, in 2 weeks it will e posted on DPAC’s website.
