

CTPAC – PROPOSAL- ADDENDUM A

SUBJECT: 4 Group Combination Tridem 60,000 lbs

DATE: July 19, 2007

POLICY: CTPAC –WG4 – 040407 - 001

PROPOSED CHANGE – ADDENDUM A

The Variance Committee Workgroup conducted a conference call meeting July 11, 2007, which included Caltrans staff. We discussed and agreed to the following change to the original proposal, 4 Group Combination Tridem 60,000 lbs.

Industry is requesting:

TPPM 2006-04 would modify and authorize 60,000 lbs. per tridem group within a 25' spread and would need to meet the 10' wide and close coupled requirement. This would apply to the power unit and jeep and / or the semi trailer with tridem axle groups.
