

CTPAC – PROPOSAL- ADDENDUM B

SUBJECT: 4 Group Combination Tridem 60,000 lbs

DATE: July 19, 2007

POLICY: CTPAC –WG4 – 040407 - 001

PROPOSED CHANGE – ADDENDUM B

The Variance Committee Workgroup conducted a conference call meeting July 11, 2007, which included Caltrans staff. We discussed and agreed to the following change to the original proposal, 4 Group Combination Tridem 60,000 lbs.

Industry is requesting:

- 1) TPPM 2006-04 policy would be modified to allow the gross weight be equally divided between tridem axle groups as authorized in the Caltrans weight chart. This would apply to the power unit and jeep and / or the semi trailer with tridem axle groups up to 10' wide.
